

DESCRIPTION

The 6506 set is a tower with a double slide, a porthole for observing the surroundings from a different perspective, and a panel with a cheerful clock, all accessible via a safe bridge. After navigating the entry ramp, toddlers will find interesting games and manipulative elements encouraging play and exploration. The large platforms provide ample space, allowing multiple children to play simultaneously.

Construction: load-bearing posts made from stainless steel pipes with a diameter of 76.1 mm. Anchoring: directly in the ground. Roofs and safety panels: panels made from flexible high-pressure polyethylene HDPE (15 mm). Steel components: fittings and connectors made from stainless steel.
