

DESCRIPTION

The 6507 set is a mini complex for active play and fun. It includes a sandbox with three manipulative panels and a tower with a double slide. Easy-to-navigate entrances and low platforms create a barrier-free environment. Numerous manipulative elements spark curiosity and encourage exploration, while the porthole window allows children to observe their surroundings from a different perspective.

Construction: load-bearing posts made from stainless steel pipes with a diameter of 76.1 mm. Anchoring: directly in the ground. Roofs and safety panels: panels made from flexible high-pressure polyethylene HDPE (15 mm). Steel components: fittings and connectors made from stainless steel.
