

DESCRIPTION

A low table with many attractions. A chute with a sieve, a window for handing over sand molds, and a hole for pouring are just some of the attractions offered by the Sand Factory 3931. Pouring, measuring, and experimenting with sand activities allow for discovery and observation. Construction: load-bearing posts made from stainless steel; Anchoring: directly in the ground; Panels and tabletops: made from flexible high-pressure polyethylene HDPE (15 mm); Steel components: made from stainless steel; Fittings and connectors: made from stainless steel.
