

DESCRIPTION

The sensory hexagon lids are part of the Terra collection, designed to enhance children's sensory experiences by interacting with various materials. The lids transform the hexagons into seats or protect their contents from weather conditions. Made of plywood with a non-slip surface, they are practical and functional additions to the sensory hexagons. Terra Sensory Hexagons are an innovative and versatile element of the collection designed to develop children's senses through interaction with various materials, providing an opportunity to explore the world through their senses in a safe and controlled environment. All elements are available for separate purchase, allowing for the creation of unique, personalized sets....
